

### ArmRLite launches TimbRLite door

In March, ArmRLite introduced the TimbRLite aluminum overhead door. The new model features engineered wood with panels offered in a variety of finishes and design options, including glass options, windload, or insulated frames.

The TimbRLite can be manufactured up to 20' x 2" wide and is offered with a 20-year welded frame warranty. [www.armrlite.com](http://www.armrlite.com) ■

### Overhead Door enhances Model 5800

In February, Overhead Door added panel designs and color options to its Model 5800 Impression Steel Collection doors. New enhancements include tall section heights, large windows, and a new recessed panel option with pinstriped and recessed-stamp design.

Several new colors are now available for the vertical raised and recessed panels including desert tan, gray, terra bronze, and black.

### Overhead Door unveils Heavy-Duty Rail

In February, Overhead Door launched its Heavy-Duty Rail, a double reinforced C-channel rail for residential doors of up to 500 lbs. Compatible with all existing Overhead Door openers, the Heavy-Duty Rail can supplement any screw, belt, or chain drive models.

The Heavy-Duty Rail weighs approximately twice as much as a standard rail of the same length and drive type. It comes preassembled in one or two pieces, depending on the size, and offers the same warranties as standard-duty alternatives. [www.overheaddoor.com](http://www.overheaddoor.com) ■

### Rytec introduces Spiral LP

In March, Rytec introduced its new Spiral LP low-profile high-performance door featuring a low-headroom configuration and a low-profile side column requiring only 6.5" of clearance.

Standard features include double-walled anodized aluminum slats, integral rubber weather seals, a continuous heavy-duty hinge system, and a variable-speed AC drive system with soft acceleration and deceleration.

The Spiral LP is ideal for parking, automotive, commercial, institutional, and residential applications. Available in models designed with 9" tall full-vision or full-ventilation slats. [www.rytecdoors.com](http://www.rytecdoors.com) ■

### Raynor releases opener with built-in camera

In March, Raynor released the Sentinel opener with built-in camera. The DC belt drive battery-backup opener includes a built-in wide-angle, 1080p HD camera. The camera features night vision and is rated for use in temperatures ranging from 13° F to 131° F.

Additional features include livestreaming and two-way audio capability that provides real-time communication between a smartphone and a garage. [www.raynor.com](http://www.raynor.com) ■

## Raynor adds TM200C options

In March, Raynor added full-view window sections and two new color options to the TM200C. The 2"-insulated commercial door is now offered in Kynar Ivory and Charcoal and a wide variety of window options. [www.raynor.com](http://www.raynor.com) ■

## Raynor announces Sleek Sightline glass

In March, Raynor announced that its StyleView AV200 and AV300 models are now available with Sleek Sightline glass. The new glass option is only offered for Raynor's StyleView aluminum doors with wide profile and one or two panes. [www.raynor.com](http://www.raynor.com) ■

## Rytec introduces Sure-Seal door

In March, Rytec launched its Sure-Seal high-speed, high-performance fabric conveyor door designed for automated storage and retrieval environments (ASRS) and features speeds of up to 100" per second and an energy-efficient insulated panel.

The Sure-Seal standard I/O expansion board and System 4 programming allow integration with existing ASRS control and monitoring systems. The new door is available in sizes up to 6' wide x 13' tall.
